

# QUALITY POLICY

Rapid Enterprises Inc. has been in business for over 30 years and is a world class manufacturer of precision machined parts, multi axis and CNC machining that meet the exacting specifications of our customers.

**Our Vision** is to be a proud Canadian manufacturer of excellent precision components and assemblies. We conduct ourselves with integrity and professionalism in all of our dealings.

**Our Mission** is to be a preferred employer by recognizing the vital effect our people have on all facets of the business. We provide a safe, clean working environment that recognizes individual and team contributions and opportunities for growth. We Strive for continuous improvement, waste elimination and employee retention. We continually invest in our people, systems, equipment and facilities to have a positive outcome for our interested parties. We maintain a state-of-the-art facility and work to minimize our operation's impact on the environment. We are our customer's supplier of choice through unequaled customer service, value and quality.

The company's strategic directions are:

1. To continuously improve the effectiveness of marketing functions.
2. To maintain the quality and precision of products.
3. To sustain on-time-delivery and maintenance function.

The Leadership of Rapid Enterprises Inc. uses Risk-based Thinking and believes that its success is achievable with the hard work and dedication of all of its employees, by increasing awareness and efficiency throughout the organization of its standards, Quality Management System ISO 9001:2015 and compatibility with the context of organization and our strategic direction.
